

Extreme Duty Multi V-Belt

We know the heat under the engine can be hotter than Death Valley, which is why we redesigned our original Extreme Duty Multi V-Belt to work harder for you. With a thicker rib construction, **the Extreme Duty Multi V-Belt is more robust, has a longer life, withstands extreme temperature buildup (hot and cold) and contains an abrasion-resistant compound.** Designed with modern diesel Class 6 to 8 HD truck applications in mind, Extreme Multi V-Belts last for 1,000 continuous hours under extreme conditions before showing signs of failure, and come with a 100,000-mile guarantee.

Features and Benefits:

- » **Top Cover:** High abrasion-resistant fabric is coated with advanced EPDM polymers to resist wear and improve flex life
- » **Ribs:** Advanced EPDM polymers resist cracking and heat buildup, which improves flex life and wear properties
- » **Insulation:** Advanced EPDM polymers improve cord adhesion and increase cord support
- » **Tensile Member:** OE polyester low-elongation cord ensures uniform performance over the life of the belt
