

Continental Heavy-Duty Turbocharger, Intercooler & Charge Air Kits

Application specific, high-quality silicone molded turbocharger hose kits for the air-charging side of the intercooler.

Product line will be denoted by part number series **654XX**.

Technical Specifications

- › Three layer fabric-reinforced, vulcanized bonded construction
- › Fluoroelastomer inner layer
- › Orange silicone interlayer
- › Blue silicone outer layers
- › T-bolt clamps with stainless steel band and bridge
- › Stainless steel nylon locking nuts

Benefits & Features

With hose construction far superior to the original equipment, **Continental Turbocharger Hose Kits** are a complete solution in a single kit.

- › High quality silicone ready to meet high temperature requirements
- › Multiple layers of reinforcement work to improve rigidity and increase service life
- › Fluoroelastomer inner layer helps prevent oil permeation and block hydrocarbons
- › Stainless steel T-bolt clamps and nuts to resist corrosion
- › T-bolt clamps and nylon-locking nuts provide higher torque over worm gear clamps, especially in a high vibration environment
