Continental Timing Belt Kit Program

Customized Solutions
for Every Make and Model

Comprehensive Line of Premium Kits

As leaders in the industry for more than 140 years, we understand what our customers need and strive to deliver innovative solutions. Our knowledge of automotive aftermarket products allows us to set new standards for providing consumer confidence - high-performance products that are reliable, low-maintenance, efficient and economical.

Our Continental Timing Belt Kits are an example of our innovative approach. With four timing belt kits that cover more than 8,300 applications, we offer a customized solution for warehouse distributors, professional repair technicians and consumers. Import and domestic kits for early and late model vehicles allow us to cover every vehicle make and model in North America. And, most importantly, with Original Equipment (OE) approvals for many auto manufacturers and our relentless commitment to product development, Continental timing belts and components meet or exceed OE fit, form and function - which means fewer callbacks and complaints.

Our Lineup:

- › Continental Timing Belt Kit
 - › Continental Series Timing Belt Kit with Water Pump
 - › Continental Pro Series Timing Belt Kit with Water Pump
 - › Continental Pro Series Plus Timing Belt Kit with Water Pump and Oil Seal
-

100,000 Miles of Peace of Mind

Continental products are rigorously tested to ensure the high performance, endurance and quality that professional repair technicians have come to expect from us.

We Guarantee It.

Best-in-Class Guarantee Program

Our Continental Pro Series and Pro Series Plus Kits offer a best-in-class guarantee mileage program that rivals many dealership programs – up to 100,000 miles* of coverage.

Each Pro Series and Pro Series Plus Timing Belt Kit comes with a Mileage Guarantee Certificate in the box. It's our commitment to customers, and it reflects the high quality of the products we offer. The certificate is a tangible representation of our kit's quality and allows professional repair technicians to differentiate themselves from the competition by offering a consumer-friendly timing belt guarantee to the market.

Each certificate comes with instructions on how to deliver the guarantee to the vehicle owner. But if you'd like to learn more about our guarantee program right now, please visit www.thequietbelt.com/guarantee.

Now you can hand your customers more than just a bill.

Continental

100,000
MILE GUARANTEE

This Pro Series Timing Kit is guaranteed by Continental up to 100,000 miles.
(See back for details)

Make & Model: _____
Year of Vehicle: _____
Mileage at time of installation: _____
VIN #: _____
Kit Number: TB
 This signifies all required components were installed.
Date of install: _____
Shop name or stamp: _____

**Replacement guarantee equal to the original vehicle manufacturer's recommended replacement interval up to 100,000 miles. Amount of coverage varies by vehicle make, model and year. See coverage details in product package.*

Continental Timing Belt Kit

Our most basic and affordable kit offering is the Continental Timing Belt Kit. With components for all vehicle makes and models, this kit covers more than 50 million vehicles on the road today.

When to use this kit:

Mechanic water pump preference

- › When professional repair technicians have a water pump preference, we still want them to use quality timing belt components. That's why our most basic kit comes without a water pump.

No need for a water pump

- › There is no reason to change parts that run well. Professional repair technicians can use our standard kit for more basic levels of service and maintenance.

Older vehicle maintenance

- › If a vehicle is approaching the end of its life, it does not make sense for the customer to spend more money than necessary. Our standard kit is the tool professional repair technicians need to save customers money and gain their trust.

Timing Belt Kit includes:

- › Timing Belt
- › Tensioners
- › Idlers
- › OE-Quality Components

Continental Series

Timing Belt Kit with Water Pump

Assembled with the same components as our standard timing belt kit, our Continental Series Timing Belt Kit with Water Pump provides the quality professional repair technicians need at a competitive price.

When to use this kit:

Older vehicle maintenance

- › Sometimes, it may be necessary for a customer to spend money on a new water pump for an aging vehicle. In this case, our Continental Series Timing Belt Kit with Water Pump is the most cost-effective option.

Competitive price alternative

- › This kit is an economic alternative for consumers with early model vehicles at the end of their life cycles. It is our goal to provide the market with an affordable product with quality components.

Timing Belt Kit with Water Pump includes:

- › Timing Belt
- › Tensioners
- › Idlers
- › Water Pump
- › OE-Quality Components

Continental Pro Series Timing Belt Kit with Water Pump

The Continental Pro Series is one of our premier kits and offers a best-in-class guarantee for all consumers. Due to its high level of quality OE components, the Pro Series Kit is considered a dealer alternative.

When to use this kit:

Mid-range to luxury vehicles where the water pump is driven by a timing belt

- › If the water pump is driven by the timing belt, it's important to replace both parts at the same time. Belt replacement requires the removal of a few extra bolts, but this extra step is the kind of quality service that owners of mid-range to luxury vehicles expect.

Requiring service guarantee

- › Like OEs, Continental covers the vehicle for the replacement interval of the belt. For many customers, the Pro Series guarantee rivals dealership programs.

Pro Series Timing Belt Kit with Water Pump includes:

- › Timing Belt
- › Tensioners
- › Idlers
- › Water Pump
- › OE Components
- › Full Guarantee

Continental Pro Series Plus Timing Belt Kit with Water Pump and Oil Seal

When your customers expect the best, offer the Continental Pro Series Plus Kit. Developed with all the quality OE components, this kit also includes camshaft and balance shaft seals to service your customers' vehicles. The Pro Series Plus kit offers a best-in-class guarantee for all consumers and is considered a dealer alternative.

When to use this kit:

Mid-range to luxury vehicles where the water pump is driven by a timing belt

- › If the water pump is driven by the timing belt, it's important to replace both parts at the same time. System replacement requires only the removal of a few extra bolts, but gives the professional repair technician and consumer confidence that the repair is complete.

Requiring service guarantee

- › Like OEs, Continental covers the vehicle for the replacement interval of the belt. For many customers, the Pro Series Plus guarantee rivals dealership programs.

Pro Series Plus Timing Belt Kit with Water Pump and Oil Seal includes:

- › Timing Belt
- › Tensioners
- › Idlers
- › Water Pump
- › Cam Seals
- › Balance Shaft Seals
- › OE Components
- › Full Guarantee

ContiTech. Smart Solutions Beyond Rubber

The ContiTech division of the Continental Corporation is one of the world's leading industry specialists. As a technology partner, our name is synonymous with expertise in development and materials for components made of natural rubber and plastics and also in combination with other materials such as metal, fabrics or silicone. By integrating electronic components, we are also generating solutions for the future.

Beyond products, systems and services, we also provide holistic solutions and have a formative influence on the industrial infrastructure. We see digitalization and current trends as an opportunity to work with our customers to add sustainable value – for both sides and for good.
